```
assignment2 <- c(16, 18, 14, 22, 27, 17, 19, 17, 17, 22, 20, 22)

myMean <- function(assignment2){return(sum(assignment2)/length(assignment2)) }

myMean(assignment2)
```

```
## [1] 19.25
```

```
# Verifying the function works as intended with original mean() function
sum(assignment2)
```

```
## [1] 231
```

```
length(assignment2)
```

```
## [1] 12
```

```
mean(assignment2)
```

```
## [1] 19.25
```
